**YOUR  
COMPLETE  
DEMOLITION  
& ABATEMENT  
SOLUTION**

## SAFE, EFFICIENT ASBESTOS REMOVAL

At A-1 Service Group, we prioritize the safety and well-being of your property and its occupants by providing expert asbestos removal services. Our certified asbestos abatement team follows rigorous protocols to identify, contain, and safely remove all asbestos-containing materials, ensuring a thorough and compliant process from start to finish.

## PRECISION DEMOLITION

At A-1 Service Group, we specialize in the safe, efficient, and precise demolition of a wide range of structures, including multi-story buildings, manufacturing facilities, treatment plants, single-family homes, and more. Our experienced team also offers comprehensive site preparation services, from rough grading and parking lot removal to backfilling and storage tank removal.

We handle even the most complex projects with expertise in demolishing bridges and industrial facilities. Using cutting-edge equipment and techniques, we ensure that your project is completed on time, within budget, and with minimal disruption.

Whether it's a small-scale house demolition or a large industrial site, trust A-1 Service Group to deliver exceptional results, every time.

As the only 100% vertical demolition and waste removal company in the Piedmont Triad area, we offer a truly turnkey solution for asbestos removal. We handle every step in-house, from demolition to hauling and disposal, utilizing our own facilities. Unlike other companies that rely on third-party landfills, we ensure complete control over the entire process, offering you peace of mind and maximum efficiency.

Choose A-1 Service Group for your asbestos removal needs and experience the difference of a fully integrated, safe, and reliable solution.

## DEMOLITION SERVICES WE OFFER

### SELECTIVE DEMO

Remove specific portions of a structure while preserving the integrity of the surrounding areas.

### INTERIOR DEMO

Remove walls, floors, ceilings, and other elements during interior renovations.

### PROPRIETARY DEMO

Destroying equipment, surplus, or expired inventory, with full documentation including a certificate of destruction and a chain of custody.

### CONCRETE/SCRAP METAL RECYCLING

Onsite concrete recycling to conserve resources and reduce emissions, while also efficiently recycling scrap metal to minimize waste and promote eco-friendly practices.
